Better Data… Simple & Collaborative…. Enhances Your Decisions

Learn More.. www.1stopops.org

What You Get…

- **Situational Awareness** – *real-time, for any incident type, regional or national level*
- **Common Operating Picture** - *know what government and/or industry is doing right now*
- **Reduce Transportation Delays** - *learn how to get your vehicles and people across state lines or the US/Canadian border faster*
- **Weather/Flooding** - *know what the weather is going to do and where flooding may occur in real-time*
- **Monitor Power Outages** - *at the local, regional or national level*
- **No Toll Station Delays** - *learn how to get your vehicles through EZ-Pass toll stations faster using a single transponder*
- **Where To Get Fuel/Food** - *know what stores are open during power outages & disasters for food, fuel, shelters, pharmacies, supplies, medications, & construction materials*
- **Live Traffic Conditions/Video** - *Get access to traffic video cameras and road closure information*
- **And much more…**

New User Dashboard In 2017

User Experience

- **Simple**
  - *Easy, Visual, Intuitive User Interface*
- **Operational**
  - *Increases Cross Sector Regional Situational Awareness*
  - *Enhances Decision Making w/Better Data*
- **Legal / Policy**
  - *Provides Legal & Policy Framework to Support Sensitive Operational Information Sharing*
- **Secure**
  - *Embedded User Identity Vetting & Validation For Access & Data Security*

Data Sources

- Weather / Storms / Floods
- Transportation Status/Closures (Roads, Bridges, Tunnels, Airports, Rail, Ports, etc..)
- State / Local Government (OEM, DOT, Fusion Centers)
- Federal Government (FEMA, DHS, DOE, DOT, Others)
- Research Organizations & Communities
- News, Social Media, Local Community Organizations
- Sector Data:
  - Electric, Transportation, Food
  - Fuel, Finance, Retail
  - Health/Medical, Telecommunications
  - Others

- Additional Sectors & Data/Sources Are
-     Possible in the Future

1StopOps
Trust — People — Process — Data

Flexibility & Growth

- Unlimited Data & App Growth Potential
- Supports 3rd Party App Development
- Provides Links to Existing Websites, Portals, URLs, Apps & Data
- Flexible Architecture to Handles Surge Capacities,
- Doesn't Require Replacement of Existing Systems
- Connects Disparate Systems, Shares
-       Data in Real-Time

Intended Users

- **Energy (Electric, Gas/Oil/ Nuclear)**
- **Petroleum and Chemical**
- **Retail and Big Box Stores**
- **Finance & Insurance**
- **Transportation (Ground, Rail, Air)**
- **Telecommunications**
- **Logistics & Supply Chain**
- **Medical & Pharmaceutical**
- **Food/Water**
- **State/Local Federal Government**
- **Law Enforcement, Emergency Management, Transportation, & Others**

Benefits

- **Simple** – one place for real-time updates and information
- **Cross Sector** - merges industry & government information & allows collaboration between systems & people
- **Aggregates Data** – no internet searching needed
- **Reliable Data** – data & information from trusted sources
- **Visual** - dashboard is simple, easy to navigate, customizable
- **Secure** – closed to public, all users validated, operational use only
- **Scalable** – expands to meet demand
- **Proven** – used by states and industry in major storms since 2010

Coordination Initiative

Organization

- 501c3 Non-Profit
- Established 2005
- Guided By State & Local Government, Industry
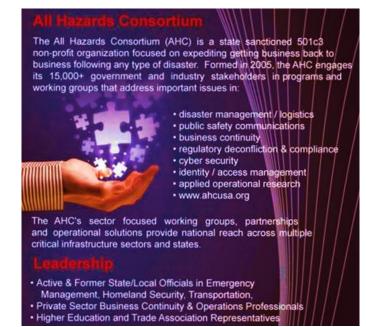

Headquarters

- Washington, DC Area

Participants

- 15,000+ Stakeholders
- Nationwide Coverage
- Private Sector
- Public Sector
- Non-Profits
- Trade Associations
- Academia
- Research & Development
- Solution Providers

Who is the AHC?

All Hazards Consortium

The All Hazards Consortium (AHC) is a state sanctioned 501c3 non-profit organization focused on expediting getting business back to business following any type of disaster. Formed in 2005, the AHC engages its 15,000+ government and industry stakeholders in programs and working groups that address important issues in:

- disaster management / logistics
- public safety communications
- business continuity
- regulatory deconfliction & compliance
- cyber security
- identity / access management
- applied operational research
- www.ahcusa.org

The AHC's sector focused working groups, partnerships and operational solutions provide national reach across multiple critical infrastructure sectors and states.

Leadership

- Active & Former State/Local Officials in Emergency Management, Homeland Security, Transportation,
- Private Sector Business Continuity & Operations Professionals
- Higher Education and Trade Association Representatives

All Hazards Consortium

Working Groups

- Fleet Response WG
- State/Local Gov't WGs
- MACINAC/FirstNet WG
- Information Sharing (SISE) WG

Disaster Experience

- Involved in Major Eastern U.S. Storms & Disasters Since 2010
- Closely Coordinates with Government at All Levels
- Develops Information Sharing Tools & Guidelines w/States & Industry
- Conducts Government/ Industry Planning and Exercises Annually

A DHS Approved & State Sanctioned Organization

- Trusted Partner of Government Since 2005

Recent Real World Case Study

Oct 2016 – Hurricane MATTHEW

- Produced daily alerts & updates to thousands of industry and government operational and executive stakeholders in US & Canada
- Provided early capture and centralization of government declarations & waivers in single location on STORM Central website
- Activated the GeoCollaborate Daily Disaster Dashboard for thousands to monitor NOAA weather / flooding status; download FEMA and state emergency declarations & waivers; and share data in real-time
- Activated the Fleet Open/Closed app to help first responders, citizens and essential personnel locate fuel, food, hotel rooms, pharmacies, supplies, & medications
- Coordinated with 20+ states for electric sector mutual assistance and fleet movements regionally; reduced transportation delays; provided cross sector situational awareness; and coordinated with industry trade associations
- Integrated NOAA, FEMA, US DOT, US DOE and DHS-IP information and status updates w/industry response efforts and operational procedures
- Resolved operational conflicts between industry and government w/states and FEMA
- Coordinated cross sector data sharing between electric, food, finance, telecommunications, retail, & transportation
- Captured new data sets for flooding, re-entry requirements, damage assessment, and road status
- Identified new processes for declaration and waiver issuance for future SOPs (further development w/states needed)
