

RESILIENCEEXCH 2021

Virtual Summit
January 26th-28th 2021

The All Hazards Consortium invites you to participate:

2021 National ResilienceEXCH (Exchange) Virtual Summit

January 26-28 - 2021 12:30-6:00PM EST (Daily)

Registration is Complimentary. Click here to register today, or visit ResilienceEXCH.org

Learn, network, and collaborate with private sector critical infrastructure partners, state emergency managers, DHS, FEMA, other federal agencies, trade associations, academia, industry, and research groups. Choose from 25+ sessions! This unique, one-of-a-kind cross-sector forum is designed to help you to:

- ✓ Create increased awareness of cross-sector vulnerabilities and inter-dependencies in supply chains to ensure the security and reliability of our nation's critical functions and systems
- ✓ Understanding key risk considerations and risk reduction strategies to protect your employees, contractors, customers, supply chains, and communities
- ✓ Become equipped with new ideas, approaches, and perspectives that will inspire you to immediately apply what you have learned to your day-to-day activities
- ✓ Get exposed to new solutions and initiatives that will help shape your planning and partner development efforts for 2021

TOPICS INCLUDE:

- Cross-Sector Resiliency Challenges During COVID-19
- State Perspectives on Regional and Cross-Sector Resilience
- Strategies for Government & Industry Coordination
- Public-Private Operational Partnerships for Power Restoration
- COVID-19: Cyber Awareness, Preparedness, and Response
- Cross-Sector Information Sharing for Planning, Preparing, & Responding to Wildfires During COVID
- ISAC Sectors Talk Resiliency & Coordination
- State Business Emergency Operation Programs
- DHS' ESF#14 for Private Sector Coordination
- How to Securely Collaborate Your Data with the SISE
- Commercial Routing Assistance App for Vehicle Movement
- Logistics and Supply Chain Resilience
- A State Model for Private Sector Information-Sharing
- Resilience in Electricity During the Pandemic
- How GIS is Helping FEMA Decision-Making
- The 5-1-1 Initiative
- Tools for Organizational Cybersecurity Workforce Development
- AND MORE!
