Gen. Stat. § 20-381 be waived for persons transporting propane and essential heating fuels.

NOW, THEREFORE, pursuant to the authority vested in me as Governor by the Constitution and the laws of the State of North Carolina, **IT IS ORDERED**:

Section 1.

I hereby declare that a state of emergency, as defined in N.C. Gen. Stat. §§ 166A-19.3(6) and 166A-19.3(19), exists in the State of North Carolina due to the current and forecasted period of prolonged cold weather in North Carolina and in other parts of the United States, and associated impact on the demand for drivers of propane and other essential heating fuels.

For purposes of this Executive Order, the emergency area is the entire State of North Carolina ("the Emergency Area")

Section 2.

I order all state and local government entities and agencies to cooperate in the implementation of the provisions of this declaration and the provisions of the North Carolina Emergency Operations Plan ("the Plan").

Section 3.

I delegate to Eddie M. Buffaloe, Jr., the Secretary of the North Carolina Department of Public Safety ("DPS"), or his designee, all power and authority granted to and required of me by Article 1A of Chapter 166A of the North Carolina General Statutes for the purpose of implementing the Plan and deploying the State Emergency Response Team to take the appropriate actions necessary to promote and secure the safety and protection of the populace in North Carolina.

Section 4.

DPS, in conjunction with the North Carolina Department of Transportation ("DOT"), shall waive the maximum hours of service for drivers prescribed by the DPS pursuant to 49 C.F.R. Part 395.3 and N.C. Gen. Stat. § 20-381 for drivers transporting propane or essential heating fuels in the emergency area.

Section 5.

Pursuant to 49 C.F.R. § 390.23, I hereby waive 49 C.F.R. § 395.3 for vehicles transporting propane and other heating fuels.

Section 6.

The North Carolina State Highway Patrol shall enforce the conditions set forth in Sections 4 and 5 of this Executive Order in a manner that does not endanger motorists in North Carolina.

Section 7.

Upon request by law enforcement officers, exempted vehicles must produce documentation sufficient to establish that their loads are for use in providing direct assistance supporting emergency relief efforts including transporting propane and essential heating fuels.

Direct assistance terminates when a driver or commercial motor vehicle is used in intrastate/interstate commerce to transport cargo or provide services that are not in support of emergency relief efforts related to transporting propane and essential heating fuel in North Carolina, or when the motor carrier dispatches a driver or commercial motor vehicle to another location to begin operations in commerce. (49 C.F.R. § 390.23(b)).

Upon termination of direct assistance to emergency relief efforts related to transporting propane and essential heating fuels in North Carolina or affected states, the motor carrier and driver are subject to the requirements of 49 C.F.R. § 395.3, except that a driver may return empty to the motor carrier's terminal or the driver's normal work reporting location without complying with 49 C.F.R. § 395.3. When a driver is moving from emergency relief efforts to normal operations a 10-hour break is required if the total time a driver operated, whether conducting emergency relief efforts or a combination of emergency relief efforts and normal operations, equals or exceeds fourteen (14) hours.

Section 8.

Pursuant to N.C. Gen. Stat. § 166A-19.23, this declaration triggers the prohibition against excessive pricing as provided in N.C. Gen. Stat. § 75-37 and 75-38 in the declared emergency area.
