

A HEALTHCARE SECTOR BRIEFING ON SUPPLY CHAIN RESILIENCY

Administration

- To reduce background noise, all callers enter the webinar with their microphones muted.
- Once the speakers are done, questions that are submitted via the Chat Box will be addressed.

Questions

- Use “CHAT” box for short questions
- For detailed questions or request send email to:
 - Mohamed.telab@dhs.gov
- Webinar is being recorded. Will be edited and posted online in the near future

What is RRAP?

The DHS Regional Resiliency Assessment Program (RRAP):

- Is a cooperative assessment of specific critical infrastructure with input and guidance from federal, state, and local partners
- Focused within a designated geographic area
- Provides a regional analysis of the surrounding infrastructure
- Addresses a range of infrastructure resilience issues that could have regionally and nationally significant consequences
- Identifies gaps, produces tools, best practices and recommendations to reduce risk for all stakeholders

Opening Remarks

- **John Durkin, Regional Director**
 - U.S. Department of Homeland Security, Office of Infrastructure Protection
 - LinkedIn: <https://www.linkedin.com/in/john-durkin-4o6o62b/>

Opening Remarks

- **Kelly McKinney**

- Director, Emergency Management + Enterprise Resilience NYU Langone Health
- Chair, Emergency Preparedness Coalition of Manhattan
- LinkedIn: <https://www.linkedin.com/in/kelly-mckinney-2a990726/>

Key Points

- Resilient supply chains are critical to patient care
- We cannot delegate responsibility of resilience to the vendors/suppliers
- Anybody who relies on healthcare supply chains needs to have a shared perspective on the issues, stakeholders and their roles and responsibility
- This RRAP effort conducted to bring light to several critical gaps in a complex environment to provide insight into some of the vulnerabilities and possible solutions

Presenters

- **Mohamed Telab**

- Protective Security Advisor, U.S. Department of Homeland Security, Office of Infrastructure Protection, Office of Infrastructure Protection
- LinkedIn: <https://www.linkedin.com/in/mohamed-telab-17859514a/>

- **Peter Fitzmaurice**

- Idaho National Laboratory supporting the Department of Homeland Security
- LinkedIn: <https://www.linkedin.com/in/peter-fitzmaurice-3015445b/>

Next Actions

- The project stakeholders will produce final RRAP report with tools, insight and lessons learned (on or about June 2018)
- Look 2nd Webinar in June/July that will provide updates on the activities and results to date

Thank You For Attending Today!

This Concludes the Webinar...
