

ASSOCIATION PROGRAM

HELP YOUR MEMBERS AVOID DISRUPTIONS DUE TO COVID-19

Give Them Access to the National Vetted PPE Exchange

The ongoing Coronavirus (COVID-19) pandemic is creating serious shortages of personal protective equipment (PPE) and other supplies needed to protect their workforce. Without these supplies, they may be forced to suspend operations, lose critical employees, or even go out of business.

The National Vetted PPE Exchange was created by industry and government to help prevent these types of crippling disruptions. The PPE Exchange allows users to post a Request for Quote (RFQ) for exactly what they need. The Exchange then alerts over 6,500 vetted suppliers. Interested suppliers respond to your request with a quote, and you select the best supplier(s) for your needs.

The National Vetted PPE Exchange is managed by the All Hazards Consortium (AHC) which has been working with government and industry for over fifteen years to solve operational issues during disasters and operates the legal trusted framework that operates this service.

The PPE Exchange empowers your members to find the PPE and other supplies they need within minutes, not days. *Current users report it reduces their internal sourcing labor costs by up to 80%.*

See the other side of this sheet for information on how your Association can benefit directly by offering this service to your member.

OFFER YOUR MEMBERS:

- Trial access to the PPE Exchange
- Two FREE RFQ's (Requests for Quotes)
- Discounts on additional RFQ credits

PROVIDE A VALUABLE MEMBER BENEFIT

Complete Turnkey Program

Once we establish our agreement with your Association, we take care of virtually everything. We put your branding on all promotional materials, web landing pages and training for your members.

You email the offer to your members and we handle the onboarding, training and account management. You will receive affiliate income on all of your members that join using the code assigned exclusively to you.

Earn Affiliate Income

Your Association can benefit directly by offering access to the National Vetted PPE Exchange.

If you choose, you can earn affiliate income on a portion of the membership fee paid by your members. When your members join as either Enterprise or Small Business members of the Exchange, you will receive a percentage of the fee.

PPE Today – Other Resilience Supplies Tomorrow

Even after a vaccine is developed, it will take a long time for COVID-19 to cease to be a problem. In addition, we are currently working on adding vetted suppliers for other essential resilience supplies such as generators, fuel, food, lodging, etc. This will allow the Exchange to be a valuable resource for your members during other natural or man-made disruptions.

BENEFITS TO YOU:

- High-Value Member Benefit
- Your branding on all materials
- Turnkey Program
- Opportunity for Affiliate Income
